PROFILE SUMMARY

Leveraging nearly 10 years of experience in clinical data analysis, business intelligence, and process optimisation within pharmaceutical and healthcare domains. Spearheaded end-to-end clinical and operational projects, translating complex requirements into actionable insights, streamlining workflows, and delivering regulatory-compliant solutions. Demonstrated expertise in data modelling, dashboard reporting, stakeholder engagement, and agile project delivery. Recognised for driving measurable improvements in operational efficiency, enhancing team capabilities, and implementing data-driven strategies that support informed decision-making and organisational growth.

KEY HIGHLIGHTS

- Clinical Business Analysis:** Delivered end-to-end clinical BA projects, from requirement gathering to solution implementation and performance evaluation across pharmaceutical and healthcare sectors.
- Requirement Gathering & Documentation:** Captured complex business requirements, created As-Is/To-Be process maps, functional specifications, business blueprint documents, BRDs, FRDs, use cases, and functional test cases.
- Data Analysis & Modelling:** Analysed clinical trial datasets including Demographics (DM), Vital Signs (VS), Adverse Events (AE), Medical History (MH), and Concomitant Medications (CM); developed data models to support decision-making, Exposure to Snowflake data warehouse for analytics, reporting, data validation, and KPI analysis using Snowflake SQL in regulated, data-driven projects.
- Business Intelligence & Visualisation:** Leveraged Power BI, Tableau, and Excel to design dashboards and reports for strategic business insights.
- Process Improvement & Feasibility Analysis:** Identified process gaps, conducted feasibility studies, and implemented data-driven solutions to optimize clinical and operational workflows.
- Business Process Modelling:** Facilitated detailed sessions to refine requirements and mapped business processes for alignment with project objectives.
- Project Management & Delivery:** Independently led multiple projects, ensuring timely completion, smooth implementation, and successful product go-live.
- Adaptability & Strategic Thinking:** Quickly adapted to dynamic business environments and effectively assessed business strategy, processes, and operational roadmap.
- Stakeholder Management:** Collaborated with cross-functional teams and senior stakeholders to align technical solutions with business goals.
- Team Leadership & Mentoring:** Guided and coached team members on technical tasks, requirements documentation, and project execution.
- Operational & Performance Optimisation:** Streamlined reporting, analytics workflows, and KPI monitoring for telemedicine, ETL, and migration projects.
- Regulatory Compliance:** Embedded validation processes and quality checks aligned with HIPAA, GDPR, and SOX standards.

KEY SKILLS

- Clinical & Business Analysis:** Clinical Data Analysis, Business Requirements Documentation, Functional Requirements Analysis, Use Case Development, Process Gap Analysis, Feasibility Studies
- Project & Stakeholder Management:** Agile Project Management, Stakeholder Collaboration, Cross-functional Coordination, Resource Planning, KPI Definition & Monitoring, Project Scope Management
- Data & Analytics:** Data Modelling, Statistical Analysis, Data Interpretation, Data-driven Decision-making, Business Intelligence Reporting, Dashboard Development
- Process & Operations:** Workflow Optimisation, As-Is/To-Be Process Mapping, Change Management, Compliance Assessment, Performance Evaluation, Risk Assessment
- Soft Skills:** Strategic Thinking, Team Leadership, Communication & Presentation, Mentoring & Coaching, Adaptability, Problem Solving

Technical Skills

Programming Languages:	Python
Python Libraries:	TensorFlow, Keras, NumPy, SciPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
Database Management:	MySQL, SQL Server, snowflake, Oracle, IBM DB2, PostgreSQL
NoSQL Databases:	MongoDB, CouchDB, DynamoDB, HBase, Neo4j, Cassandra, Redis
Big Data Tools:	Hadoop
Business Intelligence:	Power BI, Tableau, QlikView, MS Excel, Fusion Charts, Plotly
SAS:	SUBSTR, INDEX, SCAN, FIND, TRANWORD, CATX, VERIFY
Clinical Tools:	OCRDC, InForm, Aptiv Studies, RAVE Studies, Datatrak
Clinical Trial Data:	Demographics (DM), Vital Signs (VS), Adverse Events (AE), Medical History (MH), Concomitant Medications (CM)

PROFESSIONAL EXPERIENCE

Protiviti India Pvt. Ltd., Chennai – Lead Business Analyst | May 2025 – Jan-2026

Project Handled: CSL Data Projects | Client: CSL Australia

- Led a team of Business Analysts for requirement gathering, functional specification documentation, and workflow analysis.
- Translated stakeholder requirements into user stories, BRDs, FRDs, and process flows.
- Standardised BA templates, frameworks, and documentation across projects.
- Supported testing activities, validating acceptance criteria, test coverage, and UAT readiness.
- Facilitated workshops and stakeholder discussions to resolve scope, priority, and timeline conflicts.
- Reduced requirement-related defects by aligning functional specifications with stakeholder expectations.
- Improved team performance through mentoring and structured BA process frameworks.

Navikenz India Pvt. Ltd., Chennai – Lead Business Analyst | Oct 2023 – May 2025

Project 1: Insurance Broker Migration & Employee Engagement | Client: Assured Partners

- Managed end-to-end insurance system and data migration projects.
- Collected business requirements and converted them into functional specifications for migration and process improvements.
- Developed project timelines, scope, and resource plans.
- Analysed employee engagement data and collaborated with HR and external providers to optimise policies.
- Delivered seamless migration with minimal operational disruption.
- Improved employee engagement reporting for HR decision-making.

Project 2: Auto Model Processor | Client: Johnson & Johnson

- Interviewed stakeholders, including SMEs, Business Leads, Data Scientists, and Lab Technicians, to define requirements.
- Developed user stories, acceptance criteria, and architectural diagrams to guide development.
- Defined KPIs to monitor product performance and adoption.
- Identified and resolved process gaps, improving solution delivery.
- Enhanced user experience through iterative UI improvements and training materials.

Lancesoft India Pvt. Ltd., Chennai – Senior Business Analyst | Mar 2023 – Sept 2023

Project Handled: ETL Product | Client: Lentra.ai

- Directed a 10-member Agile team and managed backlog execution.
- Developed detailed user stories and project requirements to streamline development workflow.
- Conducted market research and competitor analysis to support product strategy.
- Partnered with Product Management to align product development with business goals.
- Delivered multiple product features on time while maintaining alignment with business objectives.

EXPLEO Solutions-(I) Ltd., Chennai – Business Analyst | Dec 2021 – Mar 2023

Project Handled: Talk to Star-Telemedicine Application | Client: Star Health & Allied Insurance Limited

- Analysed business processes and identified improvement opportunities.
- Prepared actionable reports from stakeholder discussions and conducted presentations.
- Mentored junior staff in BA processes and documentation standards.
- Streamlined telemedicine reporting and analytics workflows to support timely decisions.

Matrixcare India Pvt. Ltd., Chennai – Business Analyst | Apr 2019 – Nov 2021

- Translated stakeholder requirements into user stories for engineering teams.
- Managed sprint planning, reviews, and backlog prioritisation to align features with business objectives.
- Monitored industry trends and advised on clinical and operational process enhancements.
- Reduced rework through detailed requirement capture and clarification.

Preceding Employment

- **Accenture, Chennai** – Medical Services Analyst | Jul 2018 – Mar 2019
- **ICON Clinical Research India Pvt. Ltd., Chennai** – Local Lab Specialist | Nov 2015 – Feb 2018

EDUCATION

- **Master of Science (M.Sc.) in Medical Biochemistry** – SRM Medical College Hospital & Research Centre, Chennai | 2014
- **Master of Science (M.Sc.) in Biochemistry** – Vinayaka Missions University, Salem | 2011
- **Post Graduate Diploma in Human Resource Management (PGD-HRM)** – Stansfield College, Singapore | 2008
- **Bachelor of Science (B.Sc.) in Biochemistry, Chemistry & Microbiology** – University of Madras, Chennai | 2007

CERTIFICATIONS AND TRAINING

- **Base SAS Certification** – SAS Institute | Certificate No. BP071029v9
- **Intermediate Python Programming** – DataCamp
- **Foundations of Project Management** – Google (Coursera)
- **Agile Project Management** – Google (Coursera)
- **Introduction to Structured Query Language (SQL)** – University of Michigan
- **Project Planning: Putting It All Together** – Google (Coursera)
- **Project Initiation: Starting a Successful Project** – Google (Coursera)
