- **Managed and analyzed high-volume datasets** using Excel and Word, maintaining precision and consistency in reporting.

PROJECTS

AI Automation Initiative – Marketing Operations

Led enterprise-wide **AI automation as Marketing AI Champion**, streamlining workflows and eliminating manual bottlenecks, **boosting operational efficiency and process accuracy across CRM and content pipelines**.

AI-Powered Content Generation System

Designed and deployed an **AI/Python engine** for automated provider profile content creation, **reducing production turnaround by 40%** and ensuring **consistent quality across 100,000+ profiles**.

Marketing Automation Modernization (SFMC, Marketo, Hubspot, Braze)

Overhauled lifecycle automation with **advanced segmentation, experimentation, and data-driven workflows**, achieving a **20% increase in engagement** while significantly reducing manual overhead.

Salesforce CRM Data Optimization

Implemented structured data operations using **DemandTools**, strengthening **lead routing, verification, enrichment, and conversion workflows**, resulting in **higher data integrity and smoother sales funnel progression**.

Global Operations Workflow Migration (ClickUp & Monday.com)

Directed **end-to-end migration** of fragmented business operations into **ClickUp and Monday.com**, introducing **modular dashboards, automation, and governance rules**, driving **30%+ improvement in team efficiency and visibility**.

Sponsored Listings Growth Optimization

Spearheaded strategy for high-revenue ad units, optimizing **prioritization and targeting algorithms** with Analytics and GTM teams, delivering **25% uplift in lead quality and superior booking conversions**.
