CORE SKILLS

User-Centric design
High & Low Fidelity mockups
Design Thinking
Team Leadership
Design Systems
Generative AI
Prompt Engineering
User Research
User Persona
User Journey
Information Architecture
Site Map
Wire framing
Rapid prototyping
User Flow
Usability testing
Interaction design
Branding
Color theory

DESIGN TOOLS

Figma
Sketch
Adobe XD
Adobe Photoshop

AI TOOLS

Figma Make
Google Stitch
Chat GPT

HOBBIES

Listening Music
Reading Books
Travel

Parthiban K

Senior UX Lead

www.behance.net/parthibank1

Visionary **UX leader with 11+ years** of success in transforming complex product challenges into user-centric, scalable solutions across diverse domains including Banking, SaaS Cloud, Healthcare, Education, Airlines, MES, Consumer Products in B2B, B2C and Pega applications. Currently leading UX design team and AI-first projects, managing cross-functional teams, and defining UX roadmaps for global services. Proven history of delivering tangible results and scaling design practices that directly align with strategic organizational goals.

WORK EXPERIENCE

Areteans Technology Solutions (Bangalore) – Sr. UX Lead (May 2023 - Present)

- Currently involved in designing both B2B & B2C applications and hands-on experience in Pega platform apps such as UI Kit, Theme-Cosmos & Constellation to deliver scalable & user-centric interfaces.
- Leading a team of UX designers, providing strategic guidance on project execution, reviewing design work, and fostering skill development while ensuring delivery of user-centric, high-quality solutions.
- Led UX engagements for clients in the UK, Australia and India, adapting research, design and communication approaches to meet regional expectations, cultural nuances and business goals.
- Driving complete end-to-end user experience from requirement gathering, stakeholder discovery sessions and workshops to UX research, design thinking & solution development. Collaborating closely with business teams to translate requirements with meaningful & innovative design outcome.
- Conducted in-depth user & stakeholder interviews to gather insights and developed key UX artifacts including user personas, user journey, and Information Architecture to guide application design and strategy.
- Designed and implemented comprehensive design systems aligned with client branding, ensuring visual consistency, scalability and improved design efficiency across applications.
- Designing both low and high fidelity UI wireframes grounded in user-centric principles and aligned with design systems and branding standards. Developing clear user flows and building realistic UI, interactive prototypes in Figma to support usability testing and stakeholder reviews.
- Hands on experience creating design mockups and prototypes using AI-powered design tools.
- Led accessibility compliance evaluations and usability testing to ensure inclusive and user-friendly application experiences. Collaborated effectively with in Agile teams, participating in sprints, reviews, and iteration design cycles.

delaplex Pvt Ltd (Bangalore) – UX Lead (June 2020 – March 2023)

- Worked for B2B & SaaS cloud applications.
- Leading a team of UX designers, providing strategic guidance on project execution, reviewing design work, and fostering skill development while ensuring delivery of user-centric, high-quality solutions.
- Driving complete end-to-end user experience from requirement gathering, stakeholder discovery sessions and workshops to UX research, design thinking & solution development. Collaborating closely with business teams to translate requirements with meaningful & innovative design outcome.

- Created personas, user journey, Information Architecture for SaaS cloud applications.
- Involved in UX research, Heuristic Evaluation and draw sketches.
- Designing low & high fidelity wireframes following design systems standards for brand consistency, elaborating user flows and creating realistic clickable prototypes for cloud platform using Figma
- Conducted accessibility compliance, usability testing, finding UI gaps from UI development and working in Agile methodologies.
- Maintaining graphic requests using Photoshop for ID documentation.

DRG Analytics & Insights Pvt Ltd (Bangalore) – Sr. UX Designer (May 2018 - May 2020)

- Conducted user and stakeholder interviews, created personas, user journey & involved in UX research for B2B & B2C Web application.
- Drawing sketches, designing high fidelity prototypes using design system standards for brand consistency, elaborating the user flow for web applications using Sketch & finding UI gaps in dev server.
- Experienced working with Agile methodologies.

ITC Infotech (Bangalore) - UX Designer (Mar 2017 - May 2018)

- Conducted user interviews, created personas, Information Architecture and UX research for B2B and B2C Web applications.
- Designing high fidelity wireframes, elaborating the user flows for web applications using Photoshop and working in Agile methods
- Developing responsive UI using HTML, CSS3 and Bootstrap

Shiksha Infotech (Bangalore) - UI/UX Designer (Sep 2015 - Feb 2017)

- Conducted stakeholder interviews, created personas and created site map for B2B and B2C applications.
- Designing high fidelity wireframes for B2B and B2C web and mobile applications using Photoshop and Illustrator
- Converting PSD to HTML using HTML, CSS3 and Bootstrap
- Plugin customization and maintaining cross browser compatibility.
- Ensuring web design is optimized for multiple devices.
- Understanding of web standards such as W3C standards.
- Optimizing web pages for maximum speed and scalability.
- Hosting projects files into server.

Aptus Software Labs (Bangalore) - UI/UX Designer (May 2015 - Sep 2015)

- Creating wireframes into Photoshop and created user flow & site map
- Developing UI using HTML, CSS3 and Bootstrap
- Converting non-responsive into responsive websites.

Creative Media Pulse Technologies (Bangalore) - Web Designer (Jan 2015 - May 2015)

- Creating wireframes in Photoshop
- Creating website using Joomla, HTML5, CSS3 and Bootstrap.

Foal Technologies (Bangalore) - Web Designer (July 2014 - Jan 2015)

- Creating website using HTML5 and CSS3.

ACHIEVEMENTS

Received Star Performer Award for Australian client in Q2 and Q3 2024 in Areteans Technology Solutions.

EDUCATION

Bachelor of Engineering (B.E.) graduate from Anna University, Chennai in 2013.
