CORE SKILLS

User-Centric design
High & Low Fidelity mockups
Design Thinking
Team Leadership
Design Systems
Generative AI
Prompt Engineering
User Research
User Persona
User Journey
Information Architecture
Site Map
Wire framing
Rapid prototyping
User Flow
Usability testing
Interaction design
Branding
Color theory

DESIGN TOOLS

Figma
Sketch
Adobe XD
Adobe Photoshop

AI TOOLS

Figma AI
Google Stitch
Chat GPT

HOBBIES

Listening Music
Reading Books
Travel

Parthiban K

Sr. UI/UX Lead

www.behance.net/parthibank1

Visionary **UX leader with 11+ years** of success in transforming complex product challenges into user-centric, scalable solutions across diverse domains including Banking, SaaS Cloud, Healthcare, Education, Airlines, MES, Consumer Products in B2B, B2C and Pega applications. Currently leading UX design team and AI-first projects, managing cross-functional teams, and defining UX roadmaps for global services. Proven history of delivering tangible results and scaling design practices that directly align with strategic organizational goals.

WORK EXPERIENCE

Areteans Technology Solutions (Bangalore) – Sr. UI/UX Lead (May 2023 - Present)

- Currently involved in designing both B2B & B2C applications and hands-on experience in Pega platform apps such as UI Kit, Theme-Cosmos & Constellation to deliver scalable & user-centric interfaces.
- Leading a team of UX designers, providing strategic guidance on project execution, reviewing design work, and fostering skill development while ensuring delivery of user-centric, high-quality solutions.
- Led UX engagements for clients in the UK, Australia and India, adapting research, design and communication approaches to meet regional expectations, cultural nuances and business goals.
- Driving complete end-to-end user experience from requirement gathering, stakeholder discovery sessions and workshops to UX research, design thinking & solution development. Collaborating closely with business teams to translate requirements with meaningful & innovative design outcome.
- Conducted in-depth user & stakeholder interviews to gather insights and developed key UX artifacts including user personas, user journey, and Information Architecture to guide application design and strategy.
- Designed and implemented comprehensive design systems aligned with client branding, ensuring visual consistency, scalability and improved design efficiency across applications.
- Designing both low and high fidelity UI wireframes grounded in user-centric principles and aligned with design systems and branding standards. Developing clear user flows and building realistic UI, interactive prototypes in Figma to support usability testing and stakeholder reviews.
- Hands on experience creating design mockups and prototypes using AI-powered design tools.
- Led accessibility compliance evaluations and usability testing to ensure inclusive and user-friendly application experiences. Collaborated effectively with in Agile teams, participating in sprints, reviews, and iteration design cycles.

ACHIEVEMENTS

Received Star Performer Award for Australian client in Q2 and Q3, 2024 in Areteans Technology Solutions

EDUCATION

Bachelor of Engineering graduate from Anna University, Chennai in 2013.
