EXPERIENCE

Strategy & Insights Analyst – Merchandising

Lowe's

Apr 2023 – Apr 2025

Bengaluru

- **Customer Purchase Behavior Analysis:** Evaluated **30-60-90-day** purchase behavior for **10+ categories** to **uncover cross-category insights**, identifying **new customer segments** enabling marketing teams to **refine GTM strategies**, and **targeted campaign** personalization.
- **Customer Demographics & Market Insights:** Analyzed brand reset across **250+ stores using segmentation and pre-post spend analysis** to explain sales lift variance, enabling leadership to refine targeting and reset strategies.
- **Pilot vs Control Store Evaluation (A/B Test):** Compared pilot vs control stores across **average spend, repeat rates, turnaround time, attachment rate, incremental sales value, and customer segments**. Insights on convenience vs in-store trade-offs guided scalability decisions.
- **Inventory Optimization:** Led the development of a Power BI solution for **1700+ stores** to optimize inventory lifecycle management, enabling strategic reduction of **Stranded, Due, and End-of-Life Inventory**, resulting in **\$36M** in annual savings.
- **Promotional Strategy:** Developed a **Promo Campaign Impact** dashboard to measure **discount elasticity, customer responsiveness, and brand performance**, influencing macro-level promotion decisions and contributing to a **3.5% YoY** sales increase.

Consultant – Data & eCommerce Analytics

Trailytics AI

Dec 2021 – Nov 2022

Gurgaon

- **Campaign Management:** Automated campaign performance tracking with **Power BI, covering CAC, RoAS, CTR, Conversion rate, CPC, CPM, Impressions, and Ad Spend** enabling clients to optimize promotions and maximize ROI.
- **E-commerce Analytics:** Built **digital shelf dashboards** for **Share of Voice, Share of Search, Household Penetration, and Availability** across **10+ platforms** improving assortment planning, visibility and brand health tracking.
- **Supply Chain Visibility:** Delivered ERP driven dashboards for **fill rates, OTIF, Inventory vs MBQ norms, and platform returns**, enhancing demand planning and reducing stockouts across CFA and distributor networks.
- **ETL & Automation:** Delivered **automated reporting solutions** by overseeing pipeline development with Python and MySQL. Ensured **data accuracy, refresh automation, and UAT success**, enabling client ready solutions.

Technical Solutions Consultant

Horizon Broadcast

Nov 2018 – Mar 2021

Gurgaon

- Delivered broadcast infrastructure solutions, ensuring **client satisfaction** through pre-sale validation, **root cause analysis**, and **issue resolution**, which minimized post-sale problems and improved service reliability.
- **Implemented** network **monitoring solutions** and **streamlined workflows** with cross-functional teams, enhancing uptime, efficiency, and SLA adherence.
