Hyderabad | DOB: 14 July 1991

Profile Summary

AI/ML Engineer with 8+ years of overall experience, including 5 years of relevant expertise in AI/ML and

1.5 years of hands-on experience in Generative AI. Skilled in designing and deploying end-to-end Machine Learning and Generative AI solutions across healthcare, enterprise applications, and cloud environments. Strong expertise in MLOps, NLP, LLMs, RAG pipelines, anomaly detection, and cloud-based deployments. Proficient in Python, LangChain, HuggingFace, and cloud-native ML frameworks with a proven track record of delivering production-grade AI systems that enhance efficiency, automation, and decision-making.

Experience

Microline Information Systems Pvt Ltd | AI/ML Engineer (GenAI Projects)

April 2023 - Oct 2025 (1.5 years in Generative AI)

- Designed and deployed RAG-based NLP workflows for pharmacovigilance using LangChain, OpenAI, and vector DBs (ChromaDB, Pinecone).
- Built domain-specific LLM fine-tuned models with HuggingFace and PyTorch for biomedical text mining.
- Developed Generative AI chatbots with prompt engineering, knowledge base integration, and entity recognition, improving automation by 40%.
- Created Streamlit dashboards for real-time visualization of AI model outputs.
- Deployed ML pipelines on AWS SageMaker/Azure AI, ensuring scalability and reliability in production.
- Azure ML Studio, AKS, Blob Storage, ADO Pipelines.
- Applied PyOD anomaly detection, improving safety signal detection by 20%.
- Implemented schema validation with Pydantic, reducing pipeline errors by 30%.
- Optimized training pipelines with parallel processing, reducing compute time by 25%.

Environment: Python, HuggingFace, LangChain, PyTorch, TensorFlow, Vector DBs (Pinecone, ChromaDB), Streamlit, FastAPI, Docker, AWS SageMaker, Azure AI

Infosys Ltd | MLOps Engineer

Dec 2021 - Feb 2023

- Designed and implemented MLOps pipelines for deploying and monitoring ML models in production.
- Automated CI/CD workflows for ML using Jenkins, Git, and Docker.
- Managed data model versioning with MLflow and DVC for reproducibility.
- Orchestrated ETL and ML workflows using Apache Airflow.
- Built real-time monitoring dashboards for drift detection, data quality, and latency.
- Deployed ML solutions on AWS and Azure with production reliability.

Environment: Python, MLflow, Airflow, Docker, Jenkins, AWS, Azure, Git, SQL

TTD | Assistant Payroll Clerk

Oct 2016 - Apr 2021

- Prepared and audited payroll, employee bills, and purchasing invoices.
 - Ensured compliance and accuracy in salary processing for a large staff base.
-

Education

- MBA, S.V. University, Tirupati - 2016
- B.Com (Computer Applications), Dr. R.C. Reddy Degree College - 2014

Technical Skills

- **Programmings AI/ML:** Python, TensorFlow, PyTorch, HuggingFace, LangChain, PyOD, Spacy, NLTK, NumPy, Pandas
- **NLPs GenAI:** RAG pipelines, Prompt Engineering, LLM Fine-tuning, Chatbot Development
- **ML Ops Deployment:** MLflow, Airflow, Docker, Jenkins, Git, CI/CD, AWS SageMaker, Azure AI
- **Data Visualization:** Streamlit, PowerBI, Matplotlib, Seaborn
- **APIs Frameworks:** FastAPI, Flask, REST APIs, Pydantic
- **Databases:** SQL, MongoDB, Pinecone, ChromaDB, FAISS
- **Networking (Foundational):** LAN/WAN, Routing, Switching, Security

Achievements

- Delivered **AI-powered pharmacovigilance system** that improved anomaly detection accuracy by 20%.
- Recognized for building **scalable RAG-based pipelines** integrated into production environments.
- Professional **Andhra State-level Cricketer**.

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned in this resume.
