WORK EXPERIENCE

Senior Analyst - Artificial Intelligence Coforge

06/2024 - Present

Tasks

- Developed **Text-to-SQL data insight pipelines** using GenAI and in-house LLMs, improving query accuracy and reducing manual analysis effort by **30%**.
- Designed **RAG knowledge retrieval service** using vector databases and custom embedding workflows, reducing query response time by **40%**.
- Built **agent-driven automation workflows** using Agent Marketplace, enabling multi-step reasoning, tool invocation, and task orchestration.
- Implemented **MCP-based agents** for secure tool execution and enhanced context sharing across AI microservices.
- Contributed to **internal accelerators and reusable AI components**, reducing delivery cycles for upcoming projects by **25%**.

Software Developer Navtech

11/2022 - 06/2024

Tasks

- Led development of AI recommendation web-app using GenAI and custom model, improving user experience and SEO using **SSR**.
- Implemented an event-driven microservice architecture for **5+** Python Flask applications, optimizing scalability by **70%** and maintainability by **40%**.

Technical Consultant EY Global Services

11/2021 - 11/2022

Tasks

- Collaborated with cross-functional teams to design and implement user interfaces for intuitive and responsive web applications.
- Successfully integrated AWS services, including Amplify, S3 Buckets, Lambda, AWS location service, Code Pipeline and Secret Manager.

Software Engineer ConQsys Pvt. Ltd.

05/2020 - 10/2021

Tasks

- Innovated solutions leveraging Azure Cognitive Services resulting in securing 2 high-value contracts, increasing revenue by 15%.
- Orchestrated asynchronous task queues, leading to a notable 30% improvement in system responsiveness using celery and redis.

SKILLS

AgenticAI

GenAI

Bedrock Agentcore

LLM

NLP

PERSONAL PROJECTS

Bug Tracking System

- Role based app for Admin to assign bugs to Tech Expert Lead to solve the issues or bugs reported by Creator
- Used Django, MySQL for back-end development of the project
- Used React, Javascript, CSS for front-end development of project

Doc Query Pro

- A comprehensive web app tackling challenges in navigating extensive research materials using GenAI
- Pioneered a PDF question-answering feature for swift information extraction, streamlining research
- Serves researchers, legal professionals, students, and executives, elevating accessibility and productivity

EDUCATION

B.Tech - Information technology BVCOE, GGSIPU - Delhi

08/2016 - 10/2020

ACHIEVEMENTS

AI Techcon Hackathon

Bagged 2nd runner up position in Coforge AI Techcon hackathon 2025

Collaborator Award

Recognised with Coforge collaborator award for exceptional client engagement and delivery

Open Source Society, an initiative by Paytm

Co-founded technical society centred on innovation and entrepreneurship

Developed multiple pages web scraping chrome extension with authentication in 20 days
