

RAHUL KUMAR

+91 9875654985 ◇ Hyderabad, India

✉ therahulkumar40@gmail.com ◇ [in](#) Rahul Kumar

EDUCATION

Indian Institute of Information Technology, Kalyani

B.tech , Computer Science & Engineering; CGPA: 8.54

WB, India

2015 - 2019

SKILLS

Programming	Python , PHP , Java , C++
Back-end Technologies	Django, FastAPI, Flask, REST APIs, , CodeIgniter, Cakephp
Databases & Vector Stores	MySQL, PostgreSQL, MongoDB, ArangoDB, Redis, Elasticsearch
GenAI & LLM Engineering	LLM Integrations (SDKs), OpenAI APIs, LangChain, LlamaIndex, Prompt Engineering, RAG Pipelines, Embeddings, Vector Databases
Agentic AI & Autonomous Systems	Agentic AI, LangGraph, Multi-Agent Systems, OpenAI AgentBuilder SDK, Tool Calling, Planning & Execution Graphs, Agent Memory, MCP Server, Human-in-the-Loop
Cloud Technologies	AWS - (Lambda, S3, ECS/EKS), Docker, Kubernetes, CI/CD(Jenkins)

EXPERIENCE

Python Developer

July 2024 – present

AppOrchid India Private Ltd. — Hyderabad, India

*Tech: **Agentic AI, LangGraph, Multi-Agent Systems, MCP Server, LLMs, Generative AI, Prompt Engineering, RAG Pipelines, LangChain, LlamaIndex, Embeddings, Vector Databases, OpenAI APIs, OpenAI AgentBuilder SDK, Tool Calling, Agent Memory, Human-in-the-Loop, Python, Docker, ArangoDB, Elasticsearch***

- Architected and built the **Agentic AI version** of the **Easy Answers** platform from scratch, evolving the product from non-LLM and LLM-based systems to a fully **agent-driven architecture**; leveraged **LangGraph** to orchestrate supervised agent workflows enabling reliable **Text-to-SQL**, insights generation, and automated data visualizations over **GraphDB**-backed enterprise data.
- Designed and implemented **supervised agentic workflows** using **LangGraph**, **LLMs**, and **MCP Server**, hosting reusable tools for query execution, schema reasoning, and visualization; enabled controlled **tool calling**, **agent memory**, and **human-in-the-loop** interventions to ensure correctness, observability, and production safety.
- Designed and implemented a scalable **RAG pipeline** using **LangChain**, **Embeddings**, and **Elasticsearch Vector Store** to retrieve, ground, and reason over distributed product logs for contextual LLM inference.
- Led key **architectural decisions**, including a **Strategy-pattern-based dynamic persistence layer**, enabling client-specific data stores, configurable execution paths, and extensible behaviors across LLM and **agentic workflows**.
- Streamlined **Python microservices** by modularizing libraries and isolating dependencies across **20+ services**; cut **Docker** image size by **90%** and improved build/push/startup times by **40%**, enhancing deployment speed.

Lead Analyst - Python Developer

Aug 2021 – July 2024

Indian-PAC Consulting Private Ltd. (I-PAC) — Hyderabad, India

*Tech: **Python, Django, DRF, FastAPI, Postgres, MySQL, SQL, DB Partition, Redis, Docker, AWS, CI/CD***

- Optimized **Suraksha Kavach** (10Cr+ household records) with **Python**-based partitioning scripts and **SQL query optimization**; enhanced scalability and accessibility, reducing query response times by **20%** for high-volume datasets.
- Developed the **Voteworks Dashboard** with **Python**, **Django REST Framework**, and **MySQL**; automated analytics on voter turnout & demographics, boosting election management efficiency by **40%**, cutting data processing time by **50%**.
- Built the **PIOUS Survey Analytics Platform** using **FastAPI**, **Postgres**, **Redis** automating data integration and boosting user engagement, reducing analysis time by **50%** and improving data accuracy by **30%**.
- Led and mentored a team of **5 Python developers**, overseeing design, code reviews, and delivery, while driving best practices for clean, maintainable, and scalable solutions.

CERTIFICATIONS AND ACHIEVEMENTS

- Comprehensive Web Development Training (Internshala) : HTML,CSS,Bootstrap,SQL,PHP **Link : [Certificate Link](#)**
- Secured **AIR 9722** in IIT-JEE ADVANCED 2015 AND **AIR 15465** in IIT-JEE ADVANCED 2014 .
- Earned an **A+ rated** recognition from IPAC for three consecutive years: 2022, 2023 and 2024.
- Captained the **IIIT Kalyani cricket team** at IIT BHU Sports Meet (Spardha - 2018)
