Business Process Improvement | Business Operations | Business Consultant**

Chhindwara, Madhya Pradesh, India — +91 8149965619 — Nikhargupta30@yahoo.com—[linkedin.com/in/nikhargupta](https://www.linkedin.com/in/nikhargupta)

PROFESSIONAL SUMMARY

Senior IT Business Analyst with 9+ years of experience delivering enterprise-scale Data & Analytics, EDW, BI, and digital transformation initiatives across Financial Services, Consulting, Retail/CPG, and IT Services domains. Proven expertise in translating complex business problems into data-centric functional requirements, supporting enterprise data platforms, data integration, governance, and advanced analytics in Agile environments. Strong liaison between business stakeholders, data product owners, architects, and engineering teams, enabling scalable, compliant, and high-quality data solutions across global, distributed teams.

CORE COMPETENCIES

- Business Analysis**
Requirements gathering & Elicitation | BRD/FRD/SRS Documentation | Functional Specification | Process Mapping (BPMN, DFD) | Gap Analysis (AS-IS/TO- BE) | UAT Leadership | Stakeholder Management | Solution Design | RTM | Impact Assessment | Business Sign-off
- Agile & Scrum**
User Stories with Acceptance Criteria | Backlog Refinement | Sprint Planning | Story Splitting & Estimation | Scrum Ceremonies | Continuous Improvement | Cross-functional Collaboration
- Data & Analytics**
BI Requirements Definition | KPI/Metrics/Dashboard Design | Data Mapping | Data Validation & Quality | Power BI | ETL | Enterprise Data warehouse Concepts | Data Governance | Semantic Modeling
- Tools & Platforms**
Azure DevOps | JIRA | Confluence | Power BI | MS Visio | Lucidchart | ServiceNow ITSM | Dynamics 365 CRM | SQL | Databricks | Microsoft Project | Microsoft Copilot | MS Office Suite
- Domain Expertise**
Financial Services | Risk & Broking | Consulting & Advisory | Retail/CPG | IT Infrastructure | Digital Transformation | Business Process Automation | CRM Analytics | Enterprise BI | ITSM Transformation | Data Governance & management | Security & Compliance | Project management

PROFESSIONAL EXPERIENCE

IT Business Analyst – Agile Data Analytics Process Functional	Jul 2025 – Dec 2025
<i>NLB Services (WTW-Willis Towers Watson) — Financial Services & Consulting</i>	<i>Remote, India</i>

- Led functional business analysis for enterprise Global Sales Analytics initiatives leveraging Dynamics365 CRM as source system for downstream reporting, collaborating with Sales Operations and global stakeholders
- Acted as IT Business Analyst for enterprise Data & Analytics initiatives, supporting analytics consumption across Dynamics 365 → Enterprise Data Platform (Fabric / ETL / EDW concepts) → Power BI ecosystem.
- Partnered with global business stakeholders, data product owners, and architects to elicit, analyze, and document analytics and data platform requirements supporting sales performance, forecasting accuracy, and operational insights.
- Translated business needs into data-centric functional and non-functional requirements, user stories, and acceptance criteria aligned to enterprise data standards and governance models.
- Defined end-to-end data flows, business rules, KPIs, and data definitions ensuring consistency across source systems, data integration layers, and analytics outputs.
- Supported data governance initiatives, including role-based data access, data quality rules, validation checkpoints, and compliance requirements for downstream reporting.
- Facilitated Agile delivery through backlog refinement, sprint planning, reviews, and retrospectives, ensuring predictable delivery across distributed teams.
- Coordinated UAT execution, validating source-to-report accuracy, resolving defects, and securing business sign-off.

Business Functional Analyst – Enterprise BI Reporting & Analytics*Insight Global Solutions (Spencer's Retail) — Retail CPG, USA***Jan 2025 – Apr 2025***Remote, India*

- Drove requirement elicitation for enterprise BI reporting and ITSM analytics, partnering with retail business users and IT stakeholders to define operational and performance KPIs
- Supported enterprise BI and analytics initiatives, translating business questions into actionable reporting and analytics requirements for retail operations, fulfillment, and ITSM performance.
- Collaborated with business users and analytics teams to define KPIs, metrics, and dashboard requirements enabling performance management and operational insights.
- Authored BRDs, FRDs, RTMs, and functional specifications for BI solutions spanning data ingestion, transformation, modeling, and visualization layers.
- Worked closely with data engineering teams to validate data transformations, mappings, and quality rules within Databricks and Power BI environments.
- Led UAT activities including test scenario definition, data validation, defect triage, and stakeholder sign-off.

Enterprise Business Analyst – Reporting Strategy—Digital Transformation*Tata Consultancy Services — IT Services & Consulting***Jul 2021 – Nov 2024***Nagpur, India*

- Performed enterprise application portfolio analysis documenting application ownership, dependencies, integrations, and lifecycle status supporting rationalization initiatives
- Led business analysis for enterprise reporting and data integration initiatives across ITSM (ServiceNow) platforms, supporting digital transformation and analytics strategy.
- Conducted enterprise data discovery, system mapping, and integration analysis, documenting data flows and dependencies across applications and reporting layers.
- Defined reporting and analytics requirements aligned with enterprise data models, governance, and compliance standards.
- Developed AS-IS / TO-BE process models, DFDs, and integration blueprints to support EDW-aligned reporting strategy.
- Coordinated with global stakeholders and delivery teams in Agile PI planning, backlog prioritization, and release support.

Business System Analyst – Enterprise IT Solutions*Foray Soft Private Limited (Ahold Delhaize Europe) — Retail CPG***Sep 2020 – Jul 2021***Hyderabad, India*

- Acted as liaison between business stakeholders and IT teams for enterprise endpoint and security analytics initiatives.
- Gathered and documented functional requirements, authored BRDs and SOPs, and designed system workflows and integration touch points.
- Built analytics dashboards supporting governance, compliance, and operational monitoring.

Technical Business Analyst – Infrastructure IT Solutions*Wipro Limited (Vodafone VOIS) — IT Services***Jul 2015 – Sep 2019***Pune, India*

- Drove analysis and documentation for large-scale IT infrastructure projects including network, server and endpoint security rollouts
- Captured system requirements, designed architecture documentation and supported implementation through SOPs and stakeholder training

EDUCATION**Master of Computer Application (MCA) — Computer Science***Shri Ramdeobaba College of Engineering & Management***2013 - 2015***Nagpur***Bachelor of Computer Application (BCA) — Computer Science***Maharashtra Institute of Technology***2010 - 2013***Pune***KEY ACHIEVEMENTS & STRENGTHS**

- Successfully supported multiple enterprise digital transformation initiatives across global organizations in consulting, financial services, and retail domains
- Strong track record of delivering complex analytics and reporting solutions with 100% UAT sign-off and stakeholder satisfaction
- Expert in translating ambiguous business needs into clear, actionable technical requirements enabling predictable delivery through reducing the production issues crossover.
- Leadership Strengths: Servant Leadership, Conflict Resolution, Stakeholder Management, Team Building, Action-Oriented, Collaborative Leadership, Adaptability, Decision Making, Attention to Detail
