SUMMARY

FullStack Engineer skilled in Dot Net (.NET Core), EF Core, Node and React, with serverless computing with AWS and Azure. Proven experience with event-driven environments, Kafka, lambda and leading test-driven development of microfrontend, microservices, empathizing performance optimizations, technical leadership, client communication and scalability practices.

KEY ACHIEVEMENTS

Versatile Domain

Ecommerce, Travel, Telecom, Webinar, Banking, IoT, Food and Delivery

Appreciation

By Adobe, Halo Networks, T-Mobile & Emirates.

Spearhead Projects Launch

Adobe-T-Mobile, SpotterTech, Monte Carlo, and Halo Networks

Product-Driven Mindset

User-centric background, aligns myself to end user expectations.

PRIMARY SKILLS

.Net Core, C# / C sharp, Node, Express, LINQ, Entity Framework (EF Core), Prisma ORM, NUnit, Jest, Rest APIs, Exception Handling, JavaScript, React, Redux Toolkit, REST APIs, Entity Framework (EF Core), MS SQL Server, Object-Oriented Programming (OOPS), Azure App Services, API Gateway, Webpack, DLL, Functional Hooks, Task Parallel Library (TPL), Asynchronous Code, Schema Design, Next.js, Typescript

Competitive Edge

Apollo GraphQL Server, Process-flows, Apache Kafka, Deployment Strategies, MongoDB, Strapi CMS, Profiling, System Design, Design Systems, Umbraco CMS, Performance Tuning, Digital Accessibility, Event Bus / SQS / SNS, Azure Functions / VMs, AWS Fargate / EC2 / VPC, AWS S3 / Lambda / Step Functions, Redis, Docker, Kubernetes

PROJECTS

Dnata Travel | Travel | Principal Software Engineer

📅 01/2025 - 06/2025 📍 UK

Tech: .NET Core, Umbraco CMS, Dataloader Node, Express, React/Next, Apollo GraphQL, Typescript, Azure, SQL, MongoDB, Lambda, Datadog. Architecture: Facade, Event-Driven, Client-oriented, Micro frontend, Microservices

- Prioritized 3 critical GraphQL issues unblocking urgent release & resolved 5+ tasks with non-scoped feasibility.
- Advanced 48% cost reduction via migrating legacy offers service in Dnata Travel to serverless Lambda events.
- Migrated existing offers' database from SQL to MongoDB, using pipelines for faster data read, write and manipulation.
- Directed roadmap decisions via demonstrating Datadog metrics in product meet ups and A/B testing.

StudioSpace | Business Consulting(B2B) | Senior Full Stack Developer

📅 09/2022 - 05/2024 📍 Netherlands

Tech: .NET Core, NUnit, EF Core, Azure, SQL Server, Kafka, React, Docker, Typescript, Redis, Azure.

Architecture: Microservices, Repository, Hybrid Cloud.

- Advanced B2B API keys authentication & solved challenges for multi-sessions and hybrid authorization.
- Integrated data retention via Azure Storage, Event Hub, and enhanced alarming and notification policies.
- Enhanced caching mechanisms (Redis, React-query), reducing DB load by 60%.
- Contributed to Payments Gateway module optimizing subscription-based flows.
- Performed advanced SQL Server query tuning using execution plans, covering indexes, and partitioning strategies to reduce report times.

SpotterTech | IoT & Data Aggregation | Technical Lead

📅 10/2021 - 08/2022 📍 USA

Tech: React/Next, Express, Node, Jest, GraphQL, AWS, Kafka, HighCharts, Redis, Docker, Typescript, Redux, React-query, MongoDB, SQL.

Architecture: Microservices, Domain driven, Repository, Unit of Work.

- Applied lazy loading, code-splitting, custom icon fonts, responsive Images reducing page load time by 50%.
- Applied complex MongoDB aggregation logics to write pipelines for SpotterTech dashboard, including charts, graph APIs that summarized firm-wise, group-wise and user-wise data for better comprehensibility.
- In-depth analysis of existing APIs latency, reducing response time of two APIs to 200ms and 150ms from 550ms and 400ms.
- Leveraged Load balancing in AWS and GraphQL enforcement leading 25% reduction in server load, facilitating 2k requests per second.

EXPERIENCE

08/2025 - 12/2025	●	Lead Software Engineer Publicis Sapient - Executed 3 mentorship sessions, supported 6+ tech hiring, and led stakeholders demonstrations. - Spearheaded POC completion, prioritized Typescript Debt, aligning team to scoped roadmap, and motivated AI-driven development boosting reusability.
07/2024 - 07/2025	●	Technical Analyst Coforge - Got 15% increase in engagement and 40% increased user retention post accessibility focused launch of Adobe-T-Mobile milestone. - Quickly demonstrated adaptability handling over 200,000 lines of codebase. - Empathized Error Handling by refactoring higher-order components (HOC) and improved module load times by 20% optimizing Apollo GraphQL queries and middleware. - Fostered team productivity via influenced repetitive SonarQube pipeline issues resolved at dev-first layer. - Performed SQL Server query tuning via stored procedures, thus reduced report generation latency by 70%.
08/2022 - 05/2024	●	Software Engineer Smartshore Ability - Managed serverless architecture in hybrid cloud platforms Azure, AWS boosting 2x revenue increase. - Managed connection pooling, transactions, and manual query mapping for legacy systems. - Responsible for designing modular and extensible .NET libraries/services. - Patched SQL injection vulnerabilities and adhered OWASP standards to ensure protection against CSRF and XSS risks. - Performed performance tuning and focused best practices to ensure consistency and scalability standards.
10/2021 - 08/2022	●	Senior Frontend Developer Softobiz Technologies Pvt. Ltd - Accountable for team alignment for projects & contributed in stakeholders and triage meetups. - Initiated TDD Design System above MUI adhering SOLID principle reducing development time by 30%. - Reduced bug count by 20% by automated test coverage via Jest, React Testing Library and Cypress. - Improvised lighthouse metrics via profiling and implementing frontend optimizations. - Refined data security by 30% through JWT/OAuth 2.0 standards and enhanced Role-Based Access Control (RBAC).
03/2021 - 10/2021	●	Senior Frontend Developer Qodemaker IT Services Pvt. Ltd - Boosted app usability by 20% by aligning designs with Google User Interface Guidelines & Mobility Patterns. - Integrated use of Bootstrap and Material UI libraries to boost the development process by 1.5x.
04/2016 - 03/2021	●	Web Designer Royalways Technologies Pvt. Ltd - Revamped websites leading 30% increase in user retention. - Led development of 8+ mobile-first, cross-browser compatible websites crafting custom reusable JS/jQuery snippets. - Built interactive experiences via Modernizr, SVG animations, & GSAP libraries enhancing 30% of users engagement.

CERTIFICATION

React & Full Stack JavaScript Curatal (May-25)	Agile Developer Skillsoft (Nov-24)	AI Spark Engineer Coforge (Sep-24)
