**Business Functional Analyst | Data & Analytics | Agile Delivery |
Business Process Improvement | Business Operations | Business Consultant**

Chhindwara, Madhya Pradesh, India — +91 8149965619 — Nikhargupta30@yahoo.com—[linkedin.com/in/nikhargupta](https://www.linkedin.com/in/nikhargupta)

PROFESSIONAL SUMMARY

Senior Business Analyst with 9+ years delivering enterprise-scale digital transformation initiatives across Consulting, Financial Services, Retail, and IT Service domains. Proven expertise in translating complex business requirements into actionable solutions through comprehensive requirement gathering, process analysis, stakeholder management, and Agile delivery. Skilled in bridging business objectives with technical feasibility across Dynamics 365 CRM, ITSM platforms, Power BI analytics, and modern data ecosystems. Track record of enabling data-driven decision-making and driving continuous process optimization in global, cross-functional, multi-vendor environments.

CORE COMPETENCIES

- Business Analysis**
Requirements gathering & Elicitation | BRD/FRD/SRS Documentation | Process Mapping (AS-IS/TO- BE) | Gap Analysis | UAT Leadership | Stakeholder Management | Solution Design | RTM | Impact Assessment
- Agile & Scrum**
User Stories with Acceptance Criteria | Backlog Refinement | Sprint Planning | Story Splitting & Estimation | Scrum Ceremonies | Continuous Improvement | Cross-functional Collaboration
- Data & Analytics**
BI Requirements Definition | KPI/Metrics/Dashboard Design | Data Mapping | Data Validation & Quality | Power BI | ETL & Data warehouse Concepts | Data Governance | Semantic Modeling
- Tools & Platforms**
Azure DevOps | JIRA | Confluence | Power BI | MS Visio | Lucidchart | ServiceNow ITSM | Dynamics 365 CRM | SQL | Databricks | Microsoft Project | Microsoft Copilot | MS Office Suite
- Domain Expertise**
Financial Services | Risk & Broking | Consulting & Advisory | Retail/CPG | IT Infrastructure | Digital Transformation | Business Process Automation | CRM Analytics | Enterprise BI | ITSM Transformation | Data Governance & management | Security & Compliance | Project management

PROFESSIONAL EXPERIENCE

Business Functional Analyst – Agile | Data | Process **Jul 2025 – Dec 2025**

NLB Services (WTW-Willis Towers Watson) — Financial Services & Consulting *Remote, India*

- Led functional business analysis for enterprise Global Sales Analytics initiatives leveraging Dynamics365 CRM as source system for downstream reporting, collaborating with Sales Operations and global stakeholders
- Conducted AS-IS/TO-BE process mapping and gap analysis using BPMN to identify issues in opportunity lifecycle, forecast accuracy, and data consistency impacting analytics performance
- Translated business requirements into user stories with acceptance criteria and functional specifications, defining CRM behavior across entities, process stages, approvals, and security roles
- Defined end-to-end functional data flow requirements across CRM to enterprise data platforms (Microsoft Fabric/ETL/Data Warehouse) to Power BI, ensuring accurate business event interpretation
- Led CRM security redesign for analytics consumption, establishing role-based data visibility, compliance rules, and access controls for enterprise reporting governance
- Designed and executed comprehensive UAT scenarios validating source-to-analytics layer behavior, ensuring reliable executive dashboards and data accuracy
- Authored BA artifacts including BRDs, FRDs, SRS, RTMs, process flows, and DFDs maintaining full SDLC traceability
- Supported Agile delivery through backlog refinement, sprint planning, and stakeholder walkthroughs using Azure DevOps

Business Functional Analyst – Enterprise BI Reporting **Jan 2025 – Apr 2025**

Insight Global Solutions (Spencer's Retail) — Retail CPG, USA *Remote, India*

- Drove requirement elicitation for enterprise BI reporting and ITSM analytics, partnering with retail business users and IT stakeholders to define operational and performance KPIs
- Translated business requirements into functional specifications, user stories, and reporting

requirements for store performance, fulfillment status, incident lifecycle, and SLA compliance dashboards

- Defined KPIs, metrics and dashboard requirements supporting executive visibility into retail operations and service management trends
- Collaborated with data engineering teams to validate data transformations and business rules within Databricks and Power BI environments
- Coordinated UAT activities including test scenario definition, data validation, defect triage and business sign-off ensuring stakeholder confidence
- Authored BRDs, FRDs, RTMs and process flows maintaining comprehensive documentation and traceability

Enterprise Business Analyst – Reporting Strategy—Digital AI Automation

Jul 2021 – Nov 2024

Tata Consultancy Services — IT Services & Consulting

Nagpur, India

- Performed enterprise application portfolio analysis documenting application ownership, dependencies, integrations, and lifecycle status supporting rationalization initiatives
- Conducted end-to-end ITSM process analysis across ServiceNow Incident, Problem, and Change modules, identifying inefficiencies and automation opportunities aligned with ITIL practices
- Led AS-IS/TO-BE process modeling and gap analysis, translating operational work flows into future-state designs supporting digital transformation objectives
- Defined enterprise reporting requirements and KPIs enabling leadership visibility into application health, service performance, and operational risks
- Designed dataflow diagrams, system maps and integration blueprints (DFDs, BPMN, UML) representing ITSM to reporting layer architecture
- Identified automation opportunities including assisted workflows for incident triage, routing, and data standardization improving service delivery

Business System Analyst – Enterprise IT Solutions

Sep 2020 – Jul 2021

Foray Soft Private Limited (Ahold Delhaize Europe) — Retail CPG

Hyderabad, India

- Served as liaison between business stakeholders and IT teams implementing Microsoft Intune endpoint security at enterprise scale
- Gathered and analyzed functional requirements for security protocols and device lifecycle, documenting in BRDs, SOPs, and configuration templates
- Designed system workflows and integration touch points, authoring detailed architecture, data flow diagrams and process maps
- Built Power BI dashboards for real-time monitoring of device enrollment and endpoint health metrics supporting proactive governance

Technical Business Analyst – Infrastructure IT Solutions

Jul 2015 – Sep 2019

Wipro Limited (Vodafone VOIS) — IT Services

Pune, India

- Drove analysis and documentation for large-scale IT infrastructure projects including network, server and endpoint security rollouts
- Captured system requirements, designed architecture documentation and supported implementation through SOPs and stakeholder training

EDUCATION

Master of Computer Application (MCA) — Computer Science

2013 - 2015

Shri Ramdeobaba College of Engineering & Management

Nagpur

Bachelor of Computer Application (BCA) —Computer Science

2010 - 2013

Maharashtra Institute of Technology

Pune

KEY ACHIEVEMENTS & STRENGTHS

- Successfully supported multiple enterprise digital transformation initiatives across global organizations in consulting, financial services, and retail domains
- Strong track record of delivering complex analytics and reporting solutions with 100% UAT sign-off and stakeholder satisfaction
- Demonstrated ability to work effectively with global, cross-functional teams across multiple time zones and vendor ecosystems
- Expert in translating ambiguous business needs into clear, actionable technical requirements enabling predictable delivery through reducing the production issues crossover.
- Leadership Strengths: Servant Leadership, Conflict Resolution, Stakeholder Management, Team Building, Action-Oriented, Results-Driven, Collaborative Leadership, Adaptability, Decision Making, Attention to Detail
